

JOHN DOE

Email: john.doe@email.com | Phone: +1-555-0101

Location: San Francisco, CA

PROFESSIONAL SUMMARY

Senior Machine Learning Engineer with 7 years of experience building production ML & NLP systems at scale.

TECHNICAL SKILLS

Python, PyTorch, TensorFlow, Scikit-learn, Hugging Face, LangChain, ChromaDB, Pinecone, RAG, Docker, Kubernetes, AWS SageMaker, SQL, MLflow

EDUCATION

Master of Science in Computer Science, Stanford University (2017)

PROFESSIONAL EXPERIENCE

Senior ML Engineer | TechCorp Inc. | 2020 – Present (4 years)

- Built RAG-based document AI chatbot reducing ticket volume by 40% using LangChain, ChromaDB, and OpenAI embeddings.
- Led real-time fraud detection service processing 2M transactions/day with PyTorch and SageMaker.
- Architected MLOps deployment pipeline using Docker, Kubernetes, and MLflow.

Data Scientist | DataViz Solutions | 2017 – 2020 (3 years)

- Developed recommendation engine increasing user engagement by 25%.
- Built NLP text classification pipeline for customer sentiment analysis.
